Administrative Law & Government Agencies

Results achieved in prior matters are not meant to be a guarantee of success as the facts and legal circumstances vary from matter to matter.

The Administrative Law and Governmental Agencies team of Wilentz, Goldman & Spitzer, P.A. has earned a reputation among the administrative and governmental law practices in New Jersey.

Since Wilentz was established by iconic former Attorney General David T. Wilentz, we have continued to attract highly experienced former government attorneys to our practice. Our team has professional relationships with public officials and public agencies, and several attorneys have previously served in State government positions – including as officials at the Attorney General’s Office – and our intimate, first-hand experience informs the service that we provide to all of our clients.

We represent and have represented many State Authorities, agencies, other governmental entities and political subdivisions in matters relating to compliance with statutes, rules, regulations and Executive Orders applicable to each governmental entity and its operations. We also serve as special litigation counsel on behalf of local governments in connection with these and similar matters.

We also advise and represent private clients before State and other governmental entities in matters of licensing, permits, and compliance with various governmental rules and regulations affecting their business operations.
