Procurement (Public Bidding)

Results achieved in prior matters are not meant to be a guarantee of success as the facts and legal circumstances vary from matter to matter.

Procurement by New Jersey State and local governments is regulated by an intricate framework of laws and regulations. We advise governmental entities regarding the purchase of goods and services, and we help those seeking to conduct business with governmental entities to navigate procurement laws governing the sales of goods and services to public entities. We have counseled our clients on issues relating to the Local Public Contracts Law, the State Contracts law, Public School Contracts Law, and the County College Contracts Law, among others.

We also represent bidders and government entities in connection with bid proposals and disputes regarding the award of public contracts.
